**THE GAS BIZZ BULLETIN**  
November 2011

# Water New Zealand Annual Conference & Expo 2011

Rotorua Events Centre November 9-11 2011.

Join us at the Expo to see the latest acoustic leak detection equipment from Gutermann.

Personal listening equipment, Leak noise correlators,  
Leak noise loggers, GPRS based monitoring systems,  
Trunk main correlators, Pipe Locators

## SYSTEM CONTROL ENGINEERING WOULD LIKE TO INTRODUCE OUR NEWEST STAFF MEMBER

Andrew reckons this is the best staff member he has. He is on duty 24/7, dedicated to his tasks, never complains and is always quiet. A big change from the rest of the team !

We can't think of a name for him though. We had thought of Gunther Gutermann but does anyone else have any suggestions? Send your suggestions (keep it seemly please !) to [sales@systemcontrol.co.nz](mailto:sales@systemcontrol.co.nz). We are putting up one of our handy digital thermometers (featured last month) as a prize for the best name, so don't forget to include your contact details.

Gunther is shown here modelling an Aquascope 3 listening stick, the latest in Tyvek overalls and safety footwear. (thanks for the boots Pete)

Phone: 09 636 1401 Fax: 09 636 1525

# TECHNICAL TIP

Continuing on from last month's remarks about servicing of seasonal and recreational LPG equipment. We are pleased to advise that the Master Plumbers, Gasfitters & Drainlayers NZ Inc are running another training course later this month. Taken by Dave Hotter and covering the

## "Installation of Appliances in Caravans, Boats and Mobile Takeaways" This course offers 12 Credits for Gasfitters

Where ? Rinnai NZ Ltd, 105 Pavillion Drive, Airport Oaks, MANGERE  
When ? Tuesday 15th NOVEMBER 2011 5-9pm

To enrol go to [www.masterplumbers.org.nz/upskilling](http://www.masterplumbers.org.nz/upskilling)  
Or call 0800502102 Ext 700  
Only a few places left at time of press

## What happens when you run out of Gas?

### Protecting your productivity

The recent failure of the main gas supply pipeline and the long time delay required to repair the fault have highlighted the need to be prepared for any eventuality. The easiest way to have this capability is to install a dual fuel burner system on any critical process. Riello can offer a range of dual fuel burners ranging from 100 to 32,000 kW output. With Dual stage, Dual stage progressive/modulating and Fully modulating configurations available.

Contact System Control for solutions on making your operation less vulnerable to these situations.
